Entry Title

Entry Text

Posted by: {{user}} at {{time}} # likes # comments

Comments Display in list order ...

Users will be able
to "like" and
"comment" blogs -
ManyToMany
relationships

Modal: New Post

New Post

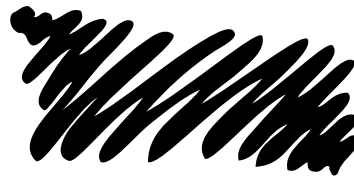

Enter your post

Upload a file:

Browse...

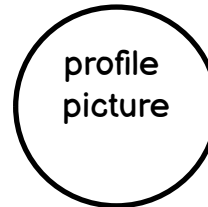

Create Post

New Post will
be added by
JavaScript
modal that
opens on
click.

Username New Post Sign Out ...

User Name | [Send Email](#)

Posts | # Likes

Blog Owners will be a limited class and their profiles will show #Likes and #Comments; Blog Viewers (everyone else) will not show #Likes / # Comments on their profile page
